BPO Consultancy Services

Services

Back Office Data Processing

- ❖ **Data Processing Solutions** is the most cost-effective and efficient outsourcing alternative for any business in need of assistance with managing their data workflow.
- ❖ Data Processing Solutions has the capabilities and resources to handle any type or size of data capture project or assignment, either short or long term. Data Processing Solutions will facilitate the preparation, capture, warehouse, retrieval and utilization of information for an organization.
- ❖ Data processing is accomplished by extracting information from a current or custom designed form, fax, catalog, book, electronic media or an on-line entry system, while simultaneously offering an Internet based data entry and query service.
- ❖ This service bureau for Time-Critical and Information Sensitive data alleviates the need for onsite data entry personnel, software & hardware while ensuring the utmost integrity, accuracy and security.
- ❖ Clients reduce costs, eliminate backlogs, significantly improve data input quality, production and document availability. This **allows the enterprise to focus on its core business** and grow exponentially without hiring additional personnel, leasing additional office space and confront the rapid obsolescence of costly hardware and software.

Back Office Data Processing

Typical services that can be outsourced to us are:

- ❖ Data Entry
- ❖ Back Office Operations
- ❖ Data Conversion
- ❖ Large Volume Data Processing
- ❖ Form Processing
- ❖ Mailing list compilation
- ❖ Data Capture from web-sites

Our outsourcing services are totally driven by quality management and customer's satisfaction. Accuracy is our bottom line.

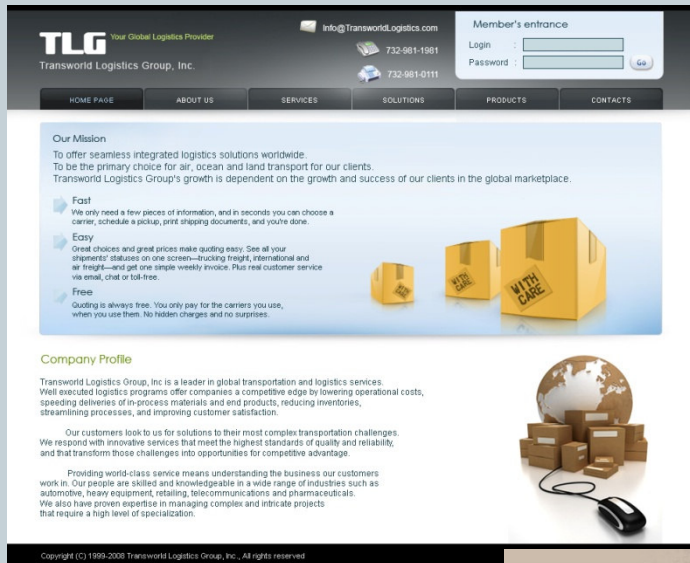

Web Design and Digital Content Creation

Solutions under this service are enlisted below:

- ❖ Web designing
- ❖ Graphics designing
- ❖ Flash Banners
- ❖ Interactive Designs
- ❖ Flash Games
- ❖ Flash Websites
- ❖ Computer based Training
- ❖ Web based Training
- ❖ E-brochure
- ❖ Search Engine Optimization
- ❖ Digital Campaign (newspaper ads, e-brochure, interactive website, banner ads etc.)

HOME PAGE ABOUT US SERVICES SOLUTIONS PRODUCTS CONTACTS

Our Mission
To offer seamless integrated logistics solutions worldwide. To be the primary choice for air, ocean and land transport for our clients. Transworld Logistics Group's growth is dependent on the growth and success of our clients in the global marketplace.

- Fast**
We only need a few pieces of information, and in seconds you can choose a carrier, schedule a pickup, print shipping documents, and you're done.
- Easy**
Great choices and great prices make quoting easy. See all your shipments displayed on one screen—tracking, freight, international and air freight—and get one simple weekly invoice. Plus real customer service via email, chat or toll-free.
- Free**
Quoting is always free. You only pay for the carriers you use, when you use them. No hidden charges and no surprises.

Company Profile
Transworld Logistics Group, Inc is a leader in global transportation and logistics services. Well executed logistics programs offer companies a competitive edge by lowering operational costs, speeding deliveries of in-process materials and end products, reducing inventories, streamlining processes, and improving customer satisfaction.

Our customers look to us for solutions to their most complex transportation challenges. We respond with innovative services that meet the highest standards of quality and reliability, and that transform those challenges into opportunities for competitive advantage.

Providing world-class service means understanding the business our customers work in. Our people are skilled and knowledgeable in a wide range of industries such as automotive, heavy equipment, retailing, telecommunications and pharmaceuticals. We also have proven expertise in managing complex and intricate projects that require a high level of specialization.
